

Mediterranean

Hydraulic

Porcelain Tiles

33,15x33,15 cm

The hydraulic porcelain tiles from the Mediterranean Collection are a first-class ally in interior decoration. In addition to combining perfectly with other materials, such as wood or cement, they can also be placed on floors and walls and can even be used for kitchen or bathroom countertops and tables.

The Mediterranean Collection is available in two finishes: Mix, colourful and fresh, and Black, for those looking for a more calm and elegant result.
